Angels RESOURCE CENTRES

Rural Development Implementation Centre

Ignite – Integrate – Impact

Angels Ignite Potential. Integrate Communities. Deliver Impact.

Rooted in Communities | Driven by Purpose

About Angels

Angels Resource Centres is a South African non-profit organisation dedicated to unlocking potential and creating meaningful opportunities in rural communities.

With over a decade of community development experience, we bridge the gap between corporate social investment and community needs through practical programmes, trusted partnerships and responsible implementation. We believe that lasting change happens with communities, not to them. By connecting people, resources and opportunities, we help build skills, strengthen livelihoods and support communities in shaping their own futures.

OUR VISION

A world where people recognise their potential, create their own solutions and build thriving, self-sustaining communities.

OUR MISSION

To turn development investment into practical opportunities through community-informed programmes that build skills, confidence, enterprise capability and long-term resilience.

OUR COMMITMENT: Development With Purpose | Partnerships With Integrity

We believe every community has potential that is worth investing in, and every development investment carries a responsibility to deliver value.

Our commitment is to work alongside communities and partners with professionalism, compassion and accountability, creating opportunities that empower people rather than foster dependence. You provide the commitment to invest. Effective impact is not measured only by what we deliver, but by what people and communities are better equipped to achieve, because of our programme.

EXPLORE OUR IMPACT PROGRAMMES

Rooted in Communities. Local By Design. Accountable By Nature.

At Angels Resource Centres, we combine our rural development experience with professional implementation skills. Our oversight and reporting helps our partners deliver on their economic and social development commitments with confidence. Our commitment is to build capability with communities, rather than create dependence on outside support. By working together, we create new opportunities for lasting change.

AGRI4CHANGE

Cultivating Entrepreneurs. Growing Sustainable Futures: Rural micro- and subsistence farmers are equipped to build thriving agricultural businesses, strengthen food security and create sustainable livelihoods. Aiming to scale up operations and increase capacity over 36 months, we combine practical training, professional mentorship with business development support and grant funding.

ENTERPRISE4CHANGE

Turning Entrepreneurs into Employers: Empowering aspiring and emerging rural entrepreneurs to turn business ideas into sustainable enterprises that generate income, create jobs and strengthen local economies. This structured business development support programme, combines practical training, professional mentorship, and grant funding over 12–24 months.
